Purpose

This policy explains which reasonable business-travel expenses can be reimbursed and what supporting information is required.

Hotel Expenses

Employees may claim reasonable hotel expenses incurred during approved business travel. A valid hotel invoice or equivalent supporting document should be provided.

Meals

Reasonable meal expenses during approved business travel may be reimbursed according to applicable company limits. Personal entertainment expenses are not included.

Local Transport

Taxi, public transport, parking, and other approved local travel costs may be claimed when they are directly related to the business trip.

Air and Rail Tickets

Approved transportation costs may be reimbursed when the booking follows company travel requirements and the expense is supported by the required document.

Receipts

Employees should retain receipts and invoices for expenses. If a receipt is unavailable, the employee should follow the company's exception process rather than creating unsupported documentation.

Claim Deadline

Travel reimbursement claims should normally be submitted within 15 days after the employee returns from the trip.

Approval

Expense claims are reviewed by the employee's manager and the applicable finance process. Claims may be returned when information or supporting documents are missing.

Non-Reimbursable Items

Personal shopping, minibar purchases, leisure activities, fines, and expenses unrelated to the approved business purpose are not reimbursable.
